## SCHOOL DISTRICT NO. 64

### POLICY 500 Planning for Learning

---

Section: Learning  
Dates of Revisions:  
Date of Adoption and  
Resolution Number: June 13, 2018 -76/18

---

#### **Rationale:**

*The mission of the School District No. 64 Board of Education, articulated in Policy 100, is to provide learners with diverse and engaging opportunities leading to a future of fulfilment, joy and purpose, and it plans for success strategically, and in consultation with its education partners.*

#### **Policy:**

Mindful of the evolving attributes of educated citizens, the board works with its education partners to ensure that these are articulated and fostered in educational programming built around the core learning, competencies, skills and knowledge that students will need to succeed in the future.

1. The board's efforts to succeed in its mission involve planning focussed on five key elements:
  - a. personalized learning for every student
  - b. quality teaching and learning
  - c. flexibility and choice
  - d. high standards
  - e. learning empowered by technology
2. Planning for student learning builds on the many strengths of our existing education system by
  - a. modernizing, adapting and refining provincial and locally-developed programs to better respond to the needs of students and society;
  - b. valuing the learner as a whole (going beyond intellectual development to address human, social, and career development)

- c. focussing on continuous improvement and system-wide capacity building;
- d. engaging in evidence-based practice.
