

POLICY 6.10 Financial Planning and Reporting

The Board believes that establishing strategic priorities and associated operational plans will enhance student educational outcomes. The Board also believes that aligning funding and resources to those strategic priorities, and engaging in multiyear financial planning, are crucial for the effective operation of the school district and provision of quality educational programs and learning environments for students and staff. This policy responds to the Ministry of Education requirement for financial planning, as stipulated within Ministry policies.

The Board will develop, implement and provide to the Ministry of Education a *Financial Plan* spanning three years. This *Financial Plan* will outline financial strategies to address long-term financial goals, including how funding and resources will be used to support the strategic plans and operational needs of the district. Prominent among these strategic plans and operational needs will be enhancing student educational outcomes.

The Board represents the community and will be open and transparent on the resource allocations, along with seeking community input on those allocations. To support meaningful engagement and promote transparency, materials and reports will be developed in a manner that will enhance readers' understanding of the school district's financial position and changes to its financial position.

Management is responsible to the Board for outlining performance measures to evaluate achievement of the objectives and the risks inherent in the *Financial Plan*. Management is also responsible for establishing internal controls over spending and providing regular financial reporting.

Financial Plan Principles

- a. The Board commits to develop the *Financial Plan* in a consultative and open manner with appropriate engagement of schools, staff and education partners. In addition, the engagement of local First Nations and Métis Nation BC will be sought.
- b. The Board will establish an engagement process to receive input from staff, education partner groups, local First Nations and Métis Nation BC, and the community on the strategic objectives, resource priorities and allocation options.
