

# GISS LIBRARY DATABASES

These resources have IP Authentication which means they will log you in automatically if you're using them at GISS. If you're using them at home (or the IP Authentication fails) the username and password are both:

## EBSCOhost Secondary

<https://search.ebscohost.com>

EBSCOhost research platform lets students search a wide range of databases, e-journals and e-books. It lets students easily find reliable, peer-reviewed content. It's used by many Universities across Canada and millions of users worldwide.

This resource includes:

- EbscoHost Research Platform
- Explora Canada
- Consumer Health Complete

Recommended for older students working on research or inquiry projects.

WORLD BOOK

## World Book Online

<http://www.worldbookonline.com>

This online encyclopedia offers curated content on a wide range of topics. The easily understandable text and highly visual content includes illustrations, videos, and interactive maps.

This resource includes:

- Advanced Encyclopedia (recommended for high school students)
- L'Encyclopédie Découverte
- Enciclopedia Estudiantil Hallazgos
- Timelines

Recommended for all grade levels.

## National Film Board of Canada

<http://www.nfb.ca>

The National Film Board Campus Collection is an online collection of over 3000 films, animations, and documentaries in English and French, many of which focus on Canadian experiences and Canadian culture. Teachers also have access to educational summaries that draw links to curriculum, in-depth educator's guides, and a curriculum-based and age-level search engine.

## Know BC

<http://www.knowbc.com>

This online encyclopedia of British Columbia contains thousands of articles, historic photographs, statistics, maps, and diagrams about British Columbia in English and in French. It also includes a significant number of Pacific Northwest resources and nature field guides.

## MyBlueprint

<http://www.myblueprint.ca/sd64>

My Blueprint is an interactive online education and career planning program. It was designed to help students with high school course selections and career planning. It also allows them to reflect on their learning, showcase their growth and share their achievements.

Students can easily navigate through the program to:

- Learn more about themselves using 520+ assessments
- Plan for high school
- Explore post-secondary opportunities across the country
- Explore and compare occupations
- Find entry-level jobs and volunteer opportunities
- Create resumes, cover letters, and budgets
