

## **SD64 - Mock First Aid Drill (Template)**

*The First Aid Attendant in collaboration with the site supervisor and JOHS committee shall at least once per year conduct a First Aid Drill.*

**Purpose:** To test effectiveness of first aid procedures and readiness.

**Scenario:** (Describe simulated injury relevant to site context.)

**Participants:** Injured worker, reporting party, first aid attendant, observer.

**Pre-Planning:** Select date/time, notify staff, review procedures, confirm communication methods.

**Execution Steps:** Summon first aid, attendant responds, treatment simulated, documentation and follow up demonstrated

**Debrief:** Record response time, communication issues, equipment issues, corrective actions.
